1.0 Introduction

The National Aeronautics and Space Administration Shared Services Center (NSSC) uses the latest version of the Agency approved Continuous Monitoring Program (CMP) Guide to complete all CMP activities. This document supplements the CMP Guide and describes detailed actions needed to extract data to accomplish validations for each CMP Control Activity for the Accounts Payable functional area within the NSSC Financial Management Division (FMD). Each CMP Control Activity is described and the specific SAP Transaction Codes and selection criteria are outlined. This document describes the applicable review and approval processes for all CMP Control Activities within the organization, culminating in the final review of the consolidated packages by the NSSC Chief, FMD.

2.0 Purpose

To outline Agency procedures followed by the NSSC related to the completion of Accounts Payable related CMP activities.

3.0 Applicability/Scope

In accordance with Federal regulations and NASA policy, the NSSC is responsible for reconciling certain G/L accounts maintained in NASA’s financial accounting system, Systems Applications and Processes (SAP). As part of the process, AP reviews account balances and aging of vendor accounts prior to submitting the CMP reports for center review.

NSSC is required to adhere to NASA Procedural Requirements (NPRs), NASA’s Enterprise Performance Support System (EPSS), and other applicable Federal regulations and NASA policies and procedures.

4.0 Privacy Data

All participants involved must ensure protection of all data covered by the Privacy Act.

5.0 Records

Records shall be maintained in accordance with NPR 1441.1, NASA Records Retention Schedules.

6.0 Cancellation/Supersession of Previous Documents

This document supersedes NSSDG-9010-0001 Revision 8.0.

NOTE: The Service Provider (SP) is responsible for documenting and maintaining all macros/scripts utilized in these processes.
PROCESS – COMPLETING AP CMP ACTIVITIES

STEP 1. NSSC AP SP

Each month, complete CMP Control Activity 4.2A: NASA to NASA Inter-Agency Transactions Reconciliation (WCF Only) to determine whether transactions with the WCF and other internal NASA entities reconcile.

A. Automation Process: Run CMP 4.2A SAP t-code GR55-ZTB6

1. Open Excel and check for a tab titled “CMPS”

2. If CMPS is available, proceed to A.4

3. If CMPS not installed, follow these steps to add the CMP macros to Excel
   a. Go to directory(N:\FM Division\Accounts Payable_Accounts Receivable\ Macros)"
   b. Select “Add-In Installer.xlsm”
   c. Click on Finance Add-In Installer
   d. From the drop-down, select “Accounts Payable.Xlam” and check Install
   e. Click “Execute”
4. In Excel, select CMPS in the Ribbon

5. “AP CMP Download Accounts Payable” button

6. From the drop down, select AP CMP 4.2, the reporting month and Fiscal Year

7. Click “OK”

8. When the “A script is trying to attach to the GUI.” dialog box displays, click the OK button.

9. The automation will save the report as [year]_[month]_4.2A_BUYERDATA.xlsx (Example: 2013_04_4.2_BUYERDATA.xlsx) to N:\FM Division\Accounts Payable_Accounts Receivable\CMP\current month
SUBJECT: Continuous Monitoring Program – Accounts Payable

Note: A job runs to move the spreadsheets to a drop zone file on the N:drive will input the file into the NSSC CMP Tool automatically

10. Skip to Step C. – NSSC CMP Tool Import process step

B. Manual Process: Execute transaction code: GR55 – ZTB6 by BA, Trading Partner 8011 and 8051 and period to determine whether transactions with the WCF and other internal NASA entities reconcile.

1. Log into SAP
2. In the open field on the main menu page, type the transaction code GR55. In the Report Group field of the Execute Report Group: Initial Screen, type ZTB6
3. Click Execute (clock icon)
4. Enter Fiscal Year
5. Company Code is NASA
6. Enter reporting period through
7. Input Business Areas

11. If there are exceptions, Open completed CMP Excel Workbook in the AP Reports Working Copies folder (N:\FM Division\Accounts Payable\Accounts Receivable\Accounts Payable\AP Reports Working Copies

12. Select Add under Description of Exceptions

13. For each item, fill in all Exception Detail Entry fields from the Excel Certification Sheet – save and repeat step for each exception

14. Select Control Activity Certification PDF to view and verify the Certification sheet is correct – If corrections are needed, go back to Description of Exceptions, and make correction

15. Refer to Appendix D – AP CMP Exception Types and select the applicable Activity Status

16. When the Preparer has completed their analysis and is ready to sign the activity, the preparer clicks on the wheel icon next to “Preparer”.

17. SP VPP Preparer Creates ServiceNow Case/Task and submits to SP AP Service Owner or delegate for CMP review and approval – one case per Center for all AP CMPs.

18. SP AP Service Owner or delegate access the Agency CMP Tool to reviews CMP. If errors are found, the SP AP Service Owner will route the SN task back to the Preparer for correction. Once verified to be accurate, the SP AP Service Owner or delegate will review the CMP for accuracy and completeness, validate that noted variances are accurate and documentation supports variances, and validates that any calculations on
documentation are accurate. Once complete, the AP SP Service Owner or delegate clicks on Add Comments, enters initials and date, then clicks Save & Submit.

19. SP AP Service Owner or delegate assigns ServiceNow Case/Task to AP L3

20. Go to Step 9

STEP 2. NSSC AP SP

Each month, complete CMP Control Activity 4.3: Reconcile the Utilization Report to the Liquidation of the Advance to ensure the amount of the liquidation recorded is equal to costs reported on the NSSC utilization report.

A. Automation Process: Run CMP 4.3 SAP t-code FMFG_E_TRANS_REG

1. Open Excel and check for a tab titled “CMP”

   ![Excel screenshot with tabs and CMP tab highlighted](image)

2. If CMP is available, proceed to A.4

3. If CMP not installed, follow these steps to add the CMP macros to Excel
   a. Go to directory (N:\FM Division\Accounts Payable_Accounts Receivable\Macros)  
   b. Select “Add-In Installer.xlsm”
   c. Click on Finance Add-In Installer
   d. From the drop-down, select “Accounts Payable.Xlam” and check Install
   e. Click “Execute”
4. In Excel, select CMPS in the Ribbon
5. AP CMP Download Accounts Payable" button
6. From the drop down, select AP CMP 4.3, the reporting month and Fiscal Year

7. Click "OK"
8. When the "A script is trying to attach to the GUI." dialog box displays, click the OK button.

9. The automation will save the report as [year]_[month]_4.3_ FMFG_E_TRANS_REG.xlsx (Example: 2013_04_4.3_ FMFG_E_TRANS_REG.xlsx) to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month
SUBJECT: Continuous Monitoring Program – Accounts Payable

Note: A job runs to move the spreadsheets to a drop zone file on the Ndrive will input the file into the NSSC CMP Tool automatically.

10. Skip to Step F.6 – NSSC CMP Tool Import process step

1. Log into SAP

2. In the open field on the main menu page type the transaction code FMFG_E_TRANS_REG

3. Press Enter

4. Type the appropriate FY in the field next to Fiscal Year

5. Enter Posting period

6. Enter Posting Date range (first day of the month to last day of the month)

7. Enter business area 10 to 76

8. Enter Account Number 1410.2000

9. Click Execute

10. Export Data to Spreadsheet (Control + Shift + F9), Select format as Text with Tabs and save as [year]_[month]_4.3_Transaction_Reconciliation.xlsx (Example 2013_04_4.3_Transaction_Reconciliation.xlsx) to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month

C. Working Capital Fund Utilization Report

Receive Working Capital Fund Utilization Report from the NSSC Budget & Accounting Office via ServiceNow Case and save as [year]_[month]_4.3_UtilizationReport.xlsx to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month

After saving report, following changes will need to be made to prepare it for the tool

1. Change the STMD tab name to OTECH

2. Remove formulas for spreadsheet – at corner of spreadsheet, right click on copy, then click special paste – values. This must be done on each tab of spreadsheet.

3. Save edited spreadsheet as [year]_[month]_4.3_UtilizationReportedited.xlsx to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month. This file will be used to upload into the CMP tool.

D. I3P Utilization Report
SUBJECT: Continuous Monitoring Program – Accounts Payable

Receive I3P Utilization Report from the I3P Business Office via ServiceNow Case and save as [year]_[month]_4.3_I3PUtilReport.xlsx to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month

After saving report, following changes will need to be made to prepare it for the tool:

1. Tab name change HQ-HEO needs to be changed to HQ – HEO – EAST
2. Tab name change HQ-SMD (JPL) needs to be changed to HQ – SMD (JPL) – NETWORX
3. Insert extra tab between HQ-HEO and HQ-SMD (JPL) and name it HQ – HEO – (JPL) - NETWORX. Copy a table for the page before and zero out all the totals.
4. Remove West lines from each spreadsheet. If you have any charges on the West lines, you will need to copy and paste the original spreadsheet received from the Business Office to the output file from the tool for each center and email this file to the Lead so it can be used to finish the center’s CMP 4.3.
5. Save edited spreadsheet year]_[month]_4.3_I3PUtilReportedited.xlsx to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month. This file will be used to upload into the tool.

E. NSSC/HQ Liquidation Report

Receive NSSC/HQ Liquidation Report from the Center via ServiceNow Case, add a line at the top of the spreadsheet and save as [year]_[month]_4.3_NSSCLiquidations.xlsx to N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month

F. NSSC CMP Tool Input

1. Go to https://cmp.nssc.nasa.gov
2. Select Input
3. Select CMP report 4.3
4. Under report, select specific report to import – repeat if there are multiple reports to import
5. Select Year
6. Select Month
7. All Centers
8. Select Browse and navigate to the CMP folder (N:\FM Division\Accounts Payable\Accounts Receivable\CMP\current month) and select the specific 4.3 reports to be imported
9. Click Submit

10. When import is complete, navigate to the specific CMP chapter

11. Select Year

12. Select Month

13. Select CMP

14. Select specific Center

15. Once File box is checked

16. Click Import

17. Once Import box is checked

18. Select Process

19. When process is complete, click on CMP number to execute CMP

20. CMP will open in Excel with the Certification Sheet and a tab for each report

21. The CMP tool will identify exceptions by entering the item number, the amount and a brief description on the Excel certification sheet. If any exceptions are found, the AP SP VPP Preparer will expand the description/explanation with additional information. To ensure all fields are accurately populated, please refer to Appendix D for exception requirements.

22. For the CMPs that have exceptions, the AP SP VPP Preparer codes each exception type in the Exception Type column on the CMP certification sheet as described in PROCESS – Coding Exception Types for CMP Activity. D. NSSC CMP Tool Input
   1. Go to https://cmp.nssc.nasa.gov
   2. Select Input
   3. Select CMP report 6.11
   4. Under report, select specific report to import – repeat if there are multiple reports to import
   5. Select Year
   6. Select Month
   7. All Centers
   8. Select Browse and navigate to the CMP folder (N:\FM Division\Accounts Payable_Accounts Receivable\CMP\current month) and select the specific 4.2 report to be imported
   9. Click Submit
   10. When input is complete, navigate to the specific CMP chapter
11. Select Year
12. Select Month
13. Select CMP
14. Select specific Center
15. Once File box is checked
16. Click Import
17. Once Import box is checked
18. Select Process
19. When process is complete, click on CMP number to execute CMP
20. CMP will open in Excel with the Certification Sheet and a tab for each report
21. The CMP tool will identify exceptions by entering the item number, the amount and a brief description on the Excel certification sheet. If any exceptions are found, the AP SP VPP Preparer will expand the description/explanation with additional information. To ensure all fields are accurately populated, please refer to PROCESS – Coding Exception Types section and Appendix D for exception requirements.

Note: With IPP implementation, whenever a mix of center funding is detected on the PLIs associated with CLINs referenced on an IPP submission, multiple documents are created and parked against the header only (no cost selection).

Regardless of whether the center that issued the contract (i.e. PGroup center) also has obligations on the award, the first invoice will be parked with the full amount of the IPP vendor invoice. Additional invoice documents are created against the other centers having obligations on the award and parked with a header amount of $0.01.

As discussed on the “elInvoicing Weekly Tag Up” and approved by the AP Process Champion team on 9/13/2018, beginning with August 2018 CMP reporting, the additional $.01 document parked on the funded center will be reported as an exception coded as:
   Exception Type 2 - Yellow,
   Description/Explanation - Parent DRN 5600# pending cost/approval
   Resolution: Apply Cost/Approve Invoice
   Person Responsible: Parent BA center

22. For the CMPs that have exceptions, the AP SP VPP Preparer codes each exception type in the Exception Type column on the CMP certification sheet as described in PROCESS – Coding Exception Types for CMP Activity. Populate the applicable information in the Resolution, Resolution Date, SR Reference, and Person Responsible fields.
23. Once the reports are reviewed and accurate and the Certification Sheet is complete, save the Excel workbook to the working copy file N:\FM Division\Accounts Payable\Accounts Receivable\Accounts Payable\AP Reports Working Copies\CMP Working Copies as [year]_[month]_[CMP #] [Business Area] (ex. 2018_04_4.2_10)

E. Automated Process: Convert to PDF

FBL1N – exceptions Items greater than 30 days may be listed under various categories, for example Total Pending Funding, Total pending Contracting Officer’s Reply, Total Pending update of SAP approver, Total Pending Approval, Total Pending Credit Memo, Total Pending SBIR. All exceptions should match to cover sheet.

8. Exit attachments and click on Add Comments located on right hand side of page. In the Add comments box, type “Review 3 complete. No Exceptions”, if document has none. Otherwise, type “Review 3 complete. With Exceptions”.

9. Click Save and submit.

10. Click “Activity Log” and verify that the comment just entered is displayed.
11. Exit after CMP review is complete.

12. When all of a Centers’ CMP reviews are complete, CS AP Certifying Officer assigns Center CMP ServiceNow Case/Task to AP L3 Lead Accountant or delegate after logging any errors on the quality tab (if applicable) of the task.

Step 10: **NSSC AP CS Senior Accountant, Lead Accountant & Chief, Accounts Payable**

1. NSSC CS AP Lead Accountant or delegate receives notification from AP CS POC via ServiceNow that signed CMP certification sheets and backup documentation for each CMP activity have been completed and are ready for final review and approval.

2. Review documentation for each CMP activity for accuracy and completeness

3. Validate noted variances are accurate and documentation completely supports all variances

4. If there are questions, the AP CS Lead Accountant returns the ServiceNow ticket back to the AP CS POC for an explanation or correction from the preparer.
   
   a. The AP CS POC will address any questions/issues and route the ServiceNow task back to the AP CS Lead Accountant or delegate for review again. Errors are documented on the Quality tab of the ServiceNow task.

5. If there are no questions, the AP CS Lead Accountant electronically signs in the Approver’s Section of the CMP coversheet via the CMP Tool. The AP CS Lead Accountant resolves the ServiceNow ticket once the review is complete and approved.

6. If unique exception are identified, AP CS Lead Accountant reviews exceptions with the Chief AP.
PROCESS – CODING EXCEPTION TYPES

Note: If an Exception is resolved before the CMP is assigned to L3, update the Resolution and Resolution date accordingly.

When AP CMPs 6.2 and 6.11 have exceptions, the AP SP VPP Preparer codes each exception type in the Exception Type column on the CMP certification sheet as follows:

1. The following AP CMP exception types are coded as Exception Type #2 “Timing/Business/Process/Systems Issues (SRs) (Yellow):
   
   a. SBIR/STTR invoices pending approval
   
   b. Final invoices pending approval
   
   c. Credit memos
   
   d. Pending goods receipt and acceptance (103/105)
   
   e. Vendor master update (SAM information)
   
   f. Pending shipping receipts 60 days and under (validate by reviewing the invoice receipt date on supporting documentation)
   
   g. Exceptions with a Service Request (SR) attached
   
   h. Permanent reconciling difference
   
   i. Approved point papers
   
   j. Invoices posted after final payment cutoff date, if interest did not accrue (SBIR/STTR, Final, 103/105)

For all other AP CMPs, exception coding should continue to follow the list above regarding those items that can be identified as an exception type #2 due to timing/business processes/systems issues.

All other AP CMP exceptions are coded as #3 Exception (Red) on the CMP certification coversheet unless there is a rare instance that you have an exception for #1 Valid Reconciling Item Property (Green) or #4 Does Not Apply (White). Any CMPs that contain items coded as #1 Valid Reconciling Item or provide specific instruction to code as a certain exception type should include the supporting documentation (i.e. emails from OCFO) that provide the authority.

**APPENDIX D – AP CMP EXCEPTION TYPES**

**CMP ITEM**
This should list the number of the exception (ex. 1, 2, 3, etc.).

**EXCEPTION AMOUNT**
The amount or the difference that is being reported is the Exception Amount. If there are multiple items, then the total net amount should be entered at the bottom of this column.

**EXCEPTION TYPE**
This should include one of the following exceptions types (ex. #1, #2, #3, or #4)

- #1 Valid Reconciling Item Property
- #3 Exception
- #4 Does Not Apply

**DESCRIPTION/EXPLANATION**
This should contain information that answers the question “What?” Describe the item and include Document #’s, dates, vendor #’s, etc. (ex. Document 5602478111 for vendor 113902)

**RESOLUTION**
This should contain information that answers the question “Why?” Describe Why this is an exception, what made it an error, is it in SAP incorrectly or not at all, etc. (ex. Update banking in SAM and re-issue payment)

**RESOLUTION DATE**
This should contain information that answers the questions “When (Date)?”. When do you expect the correction or entry to be completed…usually it should be by the end of the next month but if the correction has already been completed in the first days of the new period, put the actual date of the correction. **N/A is not an option for this field.** If the error has an SR and you don’t anticipate it happening quickly, put a date for the next quarter end or in extreme cases, the year-end date.

Also put how it will be fixed. Will the item be entered in the first days of the next period, will the item be reversed and corrected in the system or will it be researched with the Center for guidance or policy decisions?

**SR REF**
Include the SR number if applicable. This should only be used if there is a pending SR applicable.

**PERSON RESPONSIBLE**
Lastly, this should contain information that answers the questions “Who?” Include Who is responsible for fixing the item (ex. NSSC will record the item in the next month, Center will reverse and repost correctly or Item will be corrected by the NSSC when guidance is received on SR xxxxx).
Activity Status

This should include one of the following Activity Status' (ex. Gray, Green, Red, Yellow, White)

Gray - Not Assessed

Green - No Exceptions/Property Valid Reconciling Items

Red – Exception

Yellow - Timing/Business Process/System Issues (SRs)

White - Does Not Apply

APPENDIX H - AP CMP CONTROL ACTIVITY 6.9

Report: CMP 6.9
NSCC Stat Sampling Instruction Johnson Space Center (JSC - BA72)
July 1, 2018 to July 31, 2018 - Period 10

Scope and Methodology Used:

Reports were generated utilizing the following parameters within SAP:

- Report Name: ZFI_AP_PMT_STAT
- Payment Run Date: 07/01/2018 to 07/31/2018
- Business Areas: 10-HQ/NSCC, 21-ARC, 22-OMC, 23-LARC, 24-AFRC, 25-30FC, 02-M3FC, 04-55CC, 72-JSC, and 75-KSC.

Each center report is saved as a Microsoft Excel Spreadsheet. All ten (10) Excel spreadsheets will be combined to get a total population, assigning ID numbers to each line item.

The stat sampling software used is “NSSC Statistical Sampling Calculator”. The following parameters were used:

- Confidence Level: 95%
- Population: 8860
- Expected Error Rate: 10%
- Precision: 2.80%
- Sample Size of Total: 387

The sampling documents were extracted from the combined spreadsheet by ID Number. An individual spreadsheet was created for each center. The Center’s spreadsheet was distributed to FM Service Provider personnel for disbursement validation. The validation consisted of validating the amounts disbursed and recorded in SAP (ZFI_AP_PMT_STAT) to the actual source document invoices and other payment authorizing documents.

Internal Controls

Once the validation is completed it is reviewed and approved Accounts Payable Senior Accountant, Chief, Financial Services Branch and approved by Financial Management Division Chief. Once approved submitted to Financial Accounting Branch for submission to Headquarters ODFO.

Note: All documentation below is attached to CMP 6.9 with above instructions.

Federal Trading Partner Codes for the Governmentwide Financial Report System (GFRS), and the Governmentwide Treasury Account Symbol Adjusted Trial Balance System (GTAS)

The following crosswalk provides FR entity (GFRS Entity) codes used for GFRS. They are used as the Federal trading partner codes requirement for GFRS. Additionally, the codes are used for GTAS and for other entities. The codes are used to facilitate the preparation of the Financial Report of the United States Government (FR).

The crosswalk also provides Agency Identifiers (AID) used for GTAS. The following codes are to be used when reporting in GTAS by AID only. When reporting by both AID and Main Account the AID from the TAS should be used.

Definitions of Key Terms:

Financial Reporting Entity (FR Entity) – 4 digit code representing individual entities in both GFRS and GTAS that denotes reporting responsibility for agency financial statements, Adjusted Trial Balance data, Material Difference Explanations in GTAS and the Closing Package Submissions in GFRS.

Agency Identifier (AID) – 3 digit code of the component Treasury Account Symbol (TAS) format. The code is assigned based on the language in the legislation that established the TAS. AID does not necessarily indicate reporting agency responsibility.
