

NASA Shared Services Center

[Central Contractor Registration \(CCR\)](#) is the primary registrant database for the US Federal Government. The Central Contractor Registration database collects, validates, stores, and provides agencies data used for acquisitions and payments. **Both current and prospective vendors must be registered in CCR before award of a contract; basic agreement, basic ordering agreement, or blanket purchase agreement.** Registrants are required to complete a one-time registration and must update or renew their registration at least once a year to maintain an active status.

NASA Shared Services Center uses the CCR information provided by the vendor to accurately process payments. Making sure your CCR information is correct avoids payment delays.

Please note that any information provided in your registration may be shared with authorized federal government offices. Registration does not guarantee business with the federal government.

If you need assistance registering or have questions about the Federal Government Central Contractor Registry, contact the CCR Customer Service Help Desk at 1-888-227-2423.
