

Information Sheet for Wolfram Software
SEWP Catalog titled
*"NASA-Wide Wolfram Software Licenses and License
Maintenance 2019-2024"*

Product: Wolfram software licenses and associated support and maintenance

Manufacturer: Wolfram

Vendor: Colossal Contracting LLC

Summary: The NASA Shared Services Center (NSSC) Enterprise License Management Team (ELMT) portfolio includes SEWP Catalog ordering agreement for Wolfram software products and services.

Wolfram's software products and services include a range of computational technologies and data analytics capabilities. Notable products include Mathematica, a technical computing system that utilizes neural networks, machine learning, image processing, and other technical disciplines; and Alpha, a "Question & Answer" service that answers factual queries by computing answers from externally-sourced curated data.

Mathematica is a computational software program used in a variety of scientific, engineering, mathematical and computing fields and is underpinned by symbolic mathematics. Its operational scope spans most areas of technical computing. Mathematica has nearly 5,000 built-in functions covering all areas of technical computing. Additionally, Mathematica build Wolfram's software products and services include a range of computational technologies and data analytics capabilities. Notable products include Mathematica, a technical computing system that utilizes neural networks, machine learning, image processing, and other technical disciplines; and Alpha, a "Question & Answer" service that answers factual queries by computing answers from externally-sourced curated data.

System Modeler is a modeling and simulation environment for cyber-physical systems. It provides users a platform for engineering as well as life science modeling and simulation based on the Wolfram Language and provides an interactive graphical modeling and simulation environment and a customizable set of component libraries.

Premier Service is an added-value utility that complements users' Wolfram software deployments that allows for maximum benefits from their licenses. With Premier Service, users gain access to software upgrades, personal technical support, personal-use licensing, access to complimentary products and more. Additionally, Premier Service holders receive a 15%

discount off of training courses and Mathematica add-ons. There is a “Plus” version that further augments these benefits.

How to Request Quotations and Place Orders:

The following documents were completed or submitted and are filed at the NSSC’s Procurement Division:

NF1707, Special Approvals and Affirmations of Requisitions, signed July 22, 2019
NASA OCIO Assessed and Cleared List, dated August 24, 2018

NF1787, Small Business Coordination, signed September 4, 2019

A Purchase Request (PR) is required to order under this agreement if the amount of the order exceeds the Federal Acquisition Regulation (FAR) threshold for micro-purchases.

For software procurements **at or below \$250,000** for ELMT enterprise agreement purchases, the Simplified Acquisition Threshold (SAT) team at the NSSC will process these requests.

To proceed via SAT: click the link [NSSC PR Services Support Requests](#), then go to **NSSC Simplified Acquisition Customer Portal** to initiate the purchase. When creating a ticket please include the ELMT agreement number in the “Give a brief description” field.

All purchases for software **over \$250,000**, for ELMT enterprise agreement purchases, ELMT will process these requests. To initiate, send an email to the ELMT at nsscelmt@mail.nasa.gov with the PR number for awareness and approval tracking.
