1. The purpose of Modification 280 is to incorporate Contract Change Proposal (CCP) [REDACTED] into the ACES Contract which provides the approach and pricing for making the new Apple iPhone 6 and Apple iPhone 6 Plus available to NASA end-users in view of the fact that the iPhone 5s is End of Life. At that time, the 32GB Apple smartphone will be discontinued and new devices will be made available. HPES will offer the iPhone 6 and iPhone 6 Plus as priced for both a Mid-Tier and a High End configuration, so that NASA users can order the new iPhones.

- To better define the “Tiers” HPES and NASA have agreed on the following definitions:

Tiers represent different levels of devices within a device “family”.

The tier definitions are:

- Standard - Lowest level iPhone in the offered family.
  - Mid-Tier – Next highest level iPhone in the offered family above Standard.
  - High End – Next highest level iPhone in the offered family above Mid-Tier.
- Tiers offered in this CCP are at three levels, corresponding with the three lowest levels of devices Apple offers within the family. In this CCP, the Apple iPhone 6 is a family and the Apple iPhone 6 Plus is a different family.

2. Additionally, this modification adds the following language below “Table 26 – Early Tech Refresh” which was incorporated into the contract through Modification 0273:
