## **NASA SHARED SERVICES CENTER WINS FORCE OF IDEAS AWARD**

STENNIS SPACE CENTER, Miss. -- The NASA Shared Services Center (NSSC) is the 2010 winner of the Corporate Executive Board *Force of Ideas* Award in the Advanced Shared Services category.

Awarded by a committee of today's top leaders in corporate finance and strategy, the Corporate Executive Board *Force of Ideas* Awards are a defining mark of business practice innovation at the world's best-managed organizations.

The *Force of Ideas* recognizes corporate executives, functional teams, and engaged consulting houses for the design and implementation of exemplary business ideas that: fundamentally redefine best demonstrated practices, functions or key business processes and create sustainable, measurable value for internal/external stakeholders or advance the development of professional communities.

The NSSC is a partnership between NASA, CSC (formerly the Computer Sciences Corporation) and the states of Mississippi and Louisiana. The NSSC performs selected business activities for all ten NASA centers in financial management, human resources, information technology, and procurement.

The *Force of Ideas* Award was officially presented to the NSSC at an awards banquet in Washington, D.C. on September 15, 2010.
