PRESS RELEASE: 12-009

## **NASA SHARED SERVICES CENTER EMPLOYEES RECEIVE CORPORATE AWARDS**

BAY SAINT LOUIS, Miss. – Two NASA Shared Services Center (NSSC) service provider employees from CSC were recently selected to receive the 2012 Solutions Development Division - Level, North American Public Sector (NPS) President's Award, in the Leadership and Program-Project Management categories.

Mr. Scott Taylor, functional manager for the NSSC's Human Resources Division, was selected as one of two winners in the Leadership category; and Ms. Lori (Dyle) Hatten, transformation and continuous improvement lead, was selected as the winner in the Program-Project Management category.

Mr. Taylor, of Slidell, La., was selected for his exceptional leadership and management which led to many accomplishments of the Human Resources Division at the NSSC. Some of these include: the NSSC Retirement Services Team selection for the NASA Agency Honor Group Achievement, Certificate of Achievements for a member of the HR Electronic Official Personnel Folder (eOPF) Team and a member of the Personnel Action Processing (PAP) Team, and the Above and Beyond Award for which the NSSC Employee Benefit Program Team received recognition for service support.

Ms. Hatten, of Gulfport, Miss., was selected for her exceptional leadership and outstanding contributions as the Enterprise Service Desk (ESD) Project Manager for CSC. Her leadership and individual contributions were critical to the ESD successfully going "live" on November 1, 2011; achieving every major milestone of the project.

Ms. Hatten also recently received the Exceptional Public Service Medal, a very prestigious medal which is awarded for sustained performance that embodies multiple contributions on NASA projects, programs or initiatives. She received the award at the 2012 NASA Honor Awards ceremony, held earlier this month.

"These two exceptional staff members continually exemplify NSSC professionalism and customer service, and we wish them good luck at the next level of competition - CSC's North American Public Sector (NPS)," said CSC Program Manager, Steven Collins.

The NSSC is a partnership between NASA, CSC (formerly Computer Sciences Corporation) and the states of Mississippi and Louisiana. The NSSC performs selected

business activities for all 10 NASA centers in financial management, human resources, information technology, procurement and business support services.
