Subject: AP Intra-Governmental Payment and Collection (IPAC) Processing

1.0 Introduction

The National Aeronautics and Space Administration (NASA) Shared Services Center (NSSC) will process Intra-Governmental Payment and Collections (IPACs) for all NASA Centers. In accordance with federal regulations and NASA policy, the NSSC is responsible for providing IPAC and required reporting for vendor payments. The NSSC shall provide voucher examination and payment services including assembling, reviewing, processing, recording, reporting, and reconciling IPAC's. The NSSC shall process all documents in accordance with the NASA Procedural Requirements (NPR), NASA's Enterprise Performance Support System (EPSS), and other applicable federal regulations and NASA policies and procedures. The NSSC shall process payables from the receipt of the initial IPAC to its posting based upon acceptance by NASA.

2.0 Purpose

Receipt of IPAC Invoices

IPAC invoices are retrieved from the IPAC.GOV system and time and date-stamped upon receipt at the NSSC. This results in a full-text indexed electronic document cataloged in the NSSC Library. The invoices are retrieved by the IPAC Vendor Payment Processor (VPP), from the Accounts Payable Work Management System (AWMS), who performs initial checks (i.e., Agency Location Code (ALC) information, contract number, dates, amount, and document reference numbers on invoice), and then parks the invoice in System Applications and Products (SAP).

Processing of IPAC Invoices

For IPAC only, the downloaded IPAC collection or payment document to the appropriate ALC will be used as the invoice document and attached to the Document Reference Number (DRN) in SAP. If additional invoices are submitted for these charges, they will be considered backup documentation to the original downloaded IPAC document. The VPP posts the invoice in SAP, then routes through the Invoice Routing and Information System (IRIS) for notification and concurrence. Concurrence is assumed unless the Center point of contact (POC) notifies otherwise. If the Center POC does not concurrence, and, if valid, the NSSC will reject the IPAC back to sender with an explanation of why the IPAC is being rejected.

IPAC invoices must be posted in SAP and cleared to cash in the month for which the charges are submitted in the IPAC system. Those that cannot be posted and cleared will cause an outage between Treasury and SAP for the ALC that received the IPAC. The variance will be recorded on the Fund Balance with Treasury **RELEASED** - (Frinted) doctorements and the state of the second state of th

schedules are not required for IPAC invoices. Charges or collections will be posted to the SAP system using document types ZI and ZC, and then cleared using the T-codes F-52 or F-53 with document type KI and GL Account 1010.8100 for current year document and 1010.5100 for prior year (Note: Prior year IPAC credits should be posted with doc type KW for MM and KS for clearing; see Appendix F). IPAC DRN succeeded by the IPAC detail number will be entered into the reference field of the invoice, followed by the contract number.

3.0 Applicability/Scope

In accordance with Federal regulations and NASA policy, the NSSC is responsible for providing IPAC and required reporting for vendor payments.

The NSSC shall provide voucher examination and payment services including assembling, reviewing, processing, recording, reporting, and reconciling IPAC's. The NSSC shall process all documents in accordance with the NPR, NASA's EPSS, and other applicable federal regulations and NASA policies and procedures. The NSSC shall process payables from the receipt of the initial IPAC to processing based on acceptance by NASA.

4.0 Privacy Act

All participants involved must ensure protection of all data covered by the Privacy Act.

5.0 Records

The AP IPAC Processing Service Delivery outlines processes that include the creation and receipt of NASA official records as defined by NPR 1441.1. These records are included in the Accounts Payable functional Master Records Index (MRI), applicable NASA Records Retention Schedule (NRRS) or General Records Schedule (GRS) items that provide retention/disposition authority.

6.0 Cancellation/Supersession of Previous Documents

This document supersedes NSSDG-9200-0005 Revision 7.0.

NOTE: The Service Provider (SP) is responsible for documenting and maintaining all macros/scripts utilized in these processes.

Process 1 – IPAC Process

Retrieve IPAC from IPAC.gov and save in Document Imaging (DI) Folder

STEP 1. <u>NSSC SP VPP</u> – Retrieve IPAC from IPAC.GOV

Automated:

IDEA0006999 - PULL IPACS FROM IPAC SYSTEM AND PARK IN SAP

- A. As of 3/17/2021, NSSC implemented the Intelligent Automated Services (IAS) IDEA0006999. This automation will download "IPAC Received Report" for each center. It will then save the report and copy to a Document Imaging folder for upload to TechDoc. Next, the automation will download the "IPAC Download Report" for each center and will format. Lastly, the automation will park the IPACs in SAP. The IAS Bot Mission Vanguard runs each business day at 10:00 a.m. and 12:00 p.m.
 - 1. VPP monitors SAP Parked IPACs after the IAS BOT run to validate all AP IPACs received have been parked. If IPAC is not parked, VPP researches issue and manually parks if IPAC is valid or will reject IPAC in Treasury if not valid.
 - 2. VPP monitors SAP Parked IPACs after the IAS BOT run to determine if invoice was updated with cost/funding if needed or if IPAC can be posted.
 - 3. VPP will update the Text Field with pending status using the IPAC standard text field comments, VPP will then route for Cost/Funding/PLI Breakout if needed in IRIS.
 - 4. VPP will route all IPACs for Approval in IRIS

Macro Instructions

Note: To install IPAC macro, download the file at the path below: N:\FM Division\Accounts Payable_Accounts Receivable\Macros\Add-In Installer.xlam\AP_IPAC.xlam

- A. Select "IPAC" Ribbon in Excel.
- B. Click on "Report Launcher" under "Daily Reports."
- C. Select "ALL ALCs" in the dropdown for "ALC."
- D. Select "Yesterday" and the "Begin Date" and "End Date" will populate. Alternately choose the "Month," "Day," or "Year" from the dropdowns for the "Begin and End Date."

RELEASED - Printed documents may be obsolete; validate prior to use.

- E. Select "IPACs Received" from the dropdown.
- F. Check "Import to AWMS."
- G. Click "Execute."
- H. The macro will save the files to the Centers folders and the DI folder on the N drive.
- I. IPAC is retrieved by DI and entered into AWMS.

Manual Instructions

- A. Login to IPAC.GOV.
- B. Select "Query."
 - 1. Report type: IPAC Transaction Report Selection
 - 2. ALC: Center ALC
 - 3. Starting Date: Previous Business Day
 - 4. Ending Date: Previous Calendar Day
 - 5. Third party submitter>Rec'd by your ALC>Sort by>ALC
- C. Click Submit.
- D. Download file to the IPAC directory on the N:Drive at the path below: N:\FM Division\Accounts Payable_Accounts Receivable\Accounts Payable\IPAC\Center\FY XXXX\Period Number Month Name Year\Center Abbreviation_mm-dd-yy

i.e., N:\FM Division\Accounts Payable_Accounts Receivable\Accounts Payable\IPAC\ARC\FY 2018\12 September 2018\ARC_09-14-18

- E. Repeat STEPs 1-4 until every Center ALC is downloaded
- F. Copy all files to the TechDoc AP-IPAC folder (N:\Document Imaging\Accounts Payable – IPAC) to be uploaded to AWMS
- **STEP 2.** <u>NSSC SP VPP</u> Accepts Invoice from AWMS (Control Activity 11.7.7)
 - A. Log into AWMS
 - B. Performs initial checks:
 - 1. Ensures the invoice from DI is date stamped with date received.
 - 2. Ensures the IPAC has ALC information, a contract number, dates, amount, and DRNs.
 - 3. Verify information and save

Page 12 of 203

Responsible Office: FMD – Accounts Payable

Subject: AP Intra-Governmental Payment and Collection (IPAC) Processing

- 4. If the IPAC was routed to the wrong department at NSSC, the IPAC document is returned to DI for rerouting.
 - a) Add enough information in the work log for DI to reroute.
 - b) Click "Return to Document Imaging" in the Work Management System.
- If IPAC is a TRACS (Treasury Receivable Accounting and Collection System) IPAC select "Move to Service Now" in AWMS.

Note: See Appendix H for "TRACS IPAC Process."Notate in the work log that the Financial Management Request/Task (FRT/FMT) should be routed to AP IPAC L2.

- 6. If IPAC is a Department of Justice (DOJ) IPAC select "Move to Service Now" in AWMS.
 - a) Notate in the work log that the FMC/FMT should be routed to AP IPAC L2.
 - b) Await the arrival of the backup documentation from DOJ. Once received, attach to the FMC/FMT and determine which Financial Management (FM) area is responsible for working and processing the IPAC. After determination is made, route the FMC/FMT to the appropriate functional area.

Note: Use "Campus Search" at NSSC Web page to search for recurring DOJ IPACs or DOJ IPACs received in the past. Search by the purchase order (PO) number to determine what functional area processed the IPAC in the past. Alternately, Use T-code in SAP XK03 to search for the name of the Person/Company listed on the DOJ Backup documentation that the funds were collected from to determine which Functional area will process the IPAC.

STEP 3: NSSC SP, VPP – Park IPAC Invoice

A. VPP uses T-Code MIR7 and ZMIR7 to park invoice. For STEP-by-STEP End User Procedures, refer to NASA's EPSS at [SAP – Core Financials / Accounts Payable / Sub Process Area / Enter Invoice / ZMIR7 or MIR7 – Enter and Park Logistics Invoice Verification (LIV) Invoice (End User Procedure)]

- 1. Reference field should include IPAC DRN# followed by two spaces and the PO number or contract number
- **Note:** When beginning a new fiscal year, the parked documents are to be converted to the new fiscal year on the first business day of the fiscal year by following the process listed in Appendix AA
- B. VPP uses T-Code MIR4 to add Invoice TechDoc link
 - 1. Click Display Document
 - 2. Click the Services for Object icon
 - 3. Click the Create icon
 - 4. Click Create External Document (URL)
 - 5. Type "IPAC" in the Title edit box
 - 6. Cut and paste the Tech Doc link from AWMS in the address edit box
 - 7. Click the green check icon
 - 8. Click the yellow arrow exit icon

STEP 4: <u>NSSC. SP VPP</u>- Determine if IPAC requires breakout or backup documentation

- A. If IPAC needs backup/ breakout documentation, continue to STEP 5.
- B. If IPAC does not need backup/ breakout documentation, continue to STEP 7.
- **STEP 5:** <u>NSSC. SP VPP</u>- Determine if backup or supplemental documentation has been received via ServiceNow.
 - A. If supplemental documentation has not been received, continue to STEP 6.
 - B. If supplemental documentation has been received, continue to STEP 7.
- STEP 6: <u>NSSC. SP VPP</u>-Request breakout or supplemental documentation
 - A. If breakout documentation is required from center, submit request in IRIS by routing in the approval queue.
 - B. If supplemental documentation is required from vendor, submit

request to transaction contact on IPAC for backup documentation.

- **STEP 7:** <u>NSSC. SP VPP</u>- Combine links for the IPAC and the backup in TechDoc by requesting DI to combine links for backup and IPAC in TechDoc.
 - A. Create ServiceNow ticket to DI with the link to the IPAC and backup documentation to be combined.
- STEP 8: NSSC. SP VPP-Determine if IPAC is a FedMil.
 - A. If IPAC is a FedMil, follow instruction in FedMil IPAC process (Process 3).
 - B. If IPAC is not a FedMil, proceed to STEP 9.
- **STEP 9:** <u>NSSC. SP VPP</u>- Determine if the IPAC is Agency-wide or a shared PO
 - A. If IPAC needs to be split, create IPACs to the other Centers based on breakout information using the Appendix A section labeled "Guide to submitting IPACs."
 - B. If IPAC does not need to be split, continue to STEP 10.

STEP 10: NSSC. SP VPP-Determine if funding and cost is available

- A. Determine if there is a two/three way match.
 - 1. For two-way match where costing is not required, continue to STEP 14
 - 2. For three-way match where costing is not required, continue with STEP 14
 - 3. For three-way match for services, request cost via IRIS, continue with STEP 11
 - 4. For three-way match for goods, a 103 and 105 is required in SAP for costs, continue with STEP 11

Note: Two-way match is PO and Invoice. Three-way match is PO, Receiving and Inspection Report/Cost, and Invoice.

- **STEP 11:** <u>NSSC. SP VPP</u>- Request Funding/Cost/Goods Receipt in IRIS if needed to post IPAC in SAP.
 - A. If no obligation is available, the VPP will request and receive funding via IRIS before requesting cost.
 - 1. Log into IRIS Request Console in SAP using T-code: ZFI_AP_CONSOLE to route for funding.

Process 2 – SF1080 Process

STEP 1: <u>NSSC. SP VPP</u>-Accept Signed Standard Form (SF) 1080 from AWMS

A. Log into AWMS

Perform initial checks:

- 1. Ensure the SF1080 from DI is date stamped with date received
- 2. Ensure the SF1080 has ALC information, a contract number, dates, amount, authorizing signature, and Financial Accounting information, including Treasury Account Symbol(s) (TAS) Business Event Type Code (BETC)
- 3. Verify information captured by DI in AWMS is correct. If not, then correct information and save

Enter and Park Invoice/ Credit (Control Activity 11.7.7)

STEP 2: <u>NSSC. SP VPP</u> - Use this procedure to enter and park/post a signed SF1080 invoice/credit that is received in AWMS which references a contract or PO

 A. Use SAP T-Code MIR7 in SAP to begin this transaction – See Process 1 STEP 3 Manual instructions to Park invoice/credit

Note: Doc Type for IPAC is ZI for invoices or ZC for credits and KW for prior year credits. For FedMil Workaround FI Invoices, use doc type KB for FedMil Invoice and KC for FedMil Credit Memos.

- B. Once document is parked, use MIR4 to go back into that document and add TechDoc URL to invoice
 - 1. T-code MIR4
 - 2. Enter invoice document number
 - 3. Click Display Document
 - 4. Click the Services for Object icon

- 7. Type "SF1080" in the Title edit box
- 8. Cut and paste the External Invoice link from AWMS in the Address edit box (should begin with ap.nssc rather than dm.nssc)
- 9. Click the green check icon
- 10. Click the yellow arrow exit icon

(Note: In Assignment field, edit boxes and include IPAC VPP initials (placing VPP initials in the Assignment field will indicate that you are working the invoice/credit and will see to its completion). Reference field should include IPAC DRN succeeded by the detail number of the IPAC in the following format: "0000", i.e., Detail Number 2 would be XXXXXX0002, where XXXXXXX is the IPAC DRN. The IPAC DRN with suffix should be followed by two spaces and then the PO number or contract number)

C. Go back to AWMS and record the DRN from SAP and click Parked in SAP

STEP 3: <u>NSSC. SP VPP</u>- Validate SF1080 (Control Activity 11.7.7)

Run FBL1N in SAP to pull a list of all parked documents by Center and doc types ZI, ZC, KB, KW and KC

- A. Perform quality validations:
 - 1. Validate invoice has not been previously paid by running FBL1N by ZPAC number
 - 2. Validate if there is a modification to the IPAC agreement authorizing disbursements to a third party
 - 3. If SF1080 does not contain valid information, the vendor and/or Center POC will be notified, the parked invoice will be deleted in SAP, and a note made in AWMS of the rejection

STEP 4: NSSC SP VPP- Route for Center Approval and Posting Guidance

A. Log into IRIS Request Console in SAP using T-code: ZFI_AP_CONSOLE to route for Approval

Subject: AP Intra-Governmental Payment and Collection (IPAC) Processing

- B. Enter "Invoice Document No." and "FY," hit Enter. Note that all fields have been pre-populated automatically by the parked invoice document in SAP. The IPAC box will be automatically checked based on the PO/contract being set up with a ZPAC.
- C. Copy and paste the Vendor Invoice Number into the "Vendor Invoice Number field" (the contract number will be automatically populated, it needs to be replaced with the invoice number).
- D. Click the "View Tab Screen" to proceed to the Request tasks screen
- E. Click on the "Approval" tab. Enter Comments
- F. Click "Route Request"; a yellow triangle will appear indicating the request is waiting to be picked up by the IRIS web application (interval is every 60 seconds)
- G. Click "Refresh" button or any other tab. The icon will change to a "Clock" button or any other tab been created on IRIS Web.
- H. The status of the action will change to "Pending."

STEP 5: NSSC SP VPP- Process IPAC

- A. Follow "Manual Instructions" from Process 1 STEP 1 to create IPAC
- STEP 6: <u>NSSC, SP VPP</u>- Delete, change or post parked invoice (End User Procedure MIR4)

Process 3 – FEDMIL IPAC Process

STEP 1: <u>NSSC, SP VPP</u>-Determine if IPAC is a FedMil

- A. To determine if it is a FedMil, all of the following criteria must be met:
 - 1. The IPAC is received from DFAS
 - 2. An SF 1080 will be received with a detailed description of each item shipped to a NASA Center within the last 30 days
 - 3. The Purchase Order Reference Field will read "Various" or the letter "X" will be listed
 - 4. There is a 5-digit SF1080 bill number listed on the IPAC consisting of a combination of letters and numbers or the SF1080 number is listed in the Invoice Number field and/or description on the IPAC
- **STEP 2:** <u>NSSC. SP VPP</u>-Receive backup from DFAS or extract bill from NASA Aircraft Management Information System (NAMIS)
 - A. Log into NAMIS and download Excel version of bill. <u>https://ndjsammweb.ndc.nasa.gov/namisjsc/Materials/M</u> <u>atMenu/</u>
 - B. Log into ServiceNow to save backup documentation from Defense Finance and Accounting Service (DFAS) and attach backup to SAP invoice

Note: The order number (PO number) on the bill will be similar to "80747832660329". When entering the PO number in SAP, the "807478" of the order number (DODAAC) would be replaced with "Z1" prefix for JSC, "G1" for GSFC and "D1" for AFRC. The PO referenced above would be "Z132660329."

GSFC and AFRC - SF1080 (Bill) is received as a PDF

<u>JSC SF 1080 (Bill)-</u> <u>Retrieved from NAMIS as an Excel spreadsheet and does not need to be converted</u> <u>from a PDF.</u>

- 1. Save Fedmil SF1080 bill as a PDF to your desktop.
- 2. Open Excel and click on the IPAC ribbon and choose Park FedMil Bill.
- 3. There will be a prompt to choose the saved backup.

- 4. Macro will convert PDF to an Excel document and save it.
- 5. Review any lines that are highlighted and make corrections to ensure the conversion resulted in the amount of the Bill. Clean up as necessary.
- 6. After the document is reconciled in Excel click on the IPAC tab and click on Park Fedmil Bill. Choose the center and click OK.
- 7. The macro will park all the debit lines and park all the credit lines as a separate document in SAP. The parked SAP document numbers will be displayed on the Excel spreadsheet. The macro also reconciles any differences between SAP and the billed amounts. Variances will be highlighted on the spreadsheet.
- 8. The variances will need to be parked as individual documents in SAP and routed via IRIS for goods receipt, price discrepancies, etc. See STEP 9 below.

STEP 3: <u>NSSC. SP VPP</u>- Combine links for the IPAC and the backup

(**Note**: See Appendix K for STEPs to combine links manually in TechDoc using the Campus Search in lieu of DI combining the links. This reduces the amount of time it takes to get the links combined.)

- A. Attach link with the combined documents to DRN in SAP
- **STEP 4:** <u>NSSC. SP VPP</u>- Route for goods receipt, price/quantity discrepancies via IRIS
 - A. Items that need goods receipts will be routed for goods receipt
 - 1. Log into IRIS to request Goods Receipt
 - 2. Enter "Invoice Document No." and "FY", hit Enter. Note that all fields have been pre-populated automatically by the parked invoice document in SAP. The IPAC box will be automatically checked based on the PO/contract being set up with a ZPAC
 - 3. Copy and paste the Vendor Invoice Number into the "Vendor Invoice Number field" (the contract number will be automatically populated, it needs to be replaced with the invoice number)
 - 4. Click the "View Tab Screen" to proceed to the Request tasks screen
 - 5. Click on the "Goods Receipt" tab.
 - 6. Quantity and Price can be modified as needed per the invoice detail submitted.
 - 7. Change the quantity on the desired line (if needed) and press enter. Net Value is automatically adjusted.
 - 8. Select all lines required to be received per the vendor invoice.
 - 9. Click the "Refresh" button to remove a line not being routed.
 - 10. Enter Comments (optional)

STEP 1. NSSC DI or VPP Create SN Reversal Request/Task

- A. Create SN Reversal Request
 - 1. If the reversal is the result of a Center request, a SN Reversal Request/Task is created prompted by Center's submission to NSSC DI
 - a) SN request Subcategory should be set to "Reversal".
 - 2. If the reversal is the result of a NSSC error, a SN Request/Task is created by the VPP

STEP 2. <u>NSSC SP, VPP</u> – Create FD FM Reversals Request in SN

- A. Enter available information in bottom of request
 - 1. Customer/Vendor Name as it appears in SAP
 - 2. Customer/Vendor Number from SAP
 - 3. Center Abbrev from pull-down menu
 - 4. Reversal Reason from the pull-down menu
 - 5. Dollar Amount to be reversed
 - 6. Billable versus Non-Billable Select Billable box if reversal is billable (center requested, not a NSSC error)
 - 7. Original SAP Document Number identified on Reversal package
 - 8. Original Clearing Doc Number Fiscal Year (FY)
 - 9. Original Clearing Doc Number (1500#)
 - 10. Treasury Confirmation FY

RELEASED - Printed documents may be obsolete; validate prior to use.

- 11. Treasury IPAC Accomplished Doc Date
- 12. Treasury IPAC Document Reference Number (DRN)
- 13. Original SAP Document FY
- 14. Contract/Purchase Order Number
- 15. PLI/ALI/Line Number No.
- 16. Delivery Order/Task Order Number
- 17. SAP Invoice Document Number (560#)
- 18. Invoice Date (IPAC DRN Date)
- 19. Original Service Entry Sheet (ME23N) [if available]

STEP 3. NSSC SP, VPP – Reverse IPAC cash clearing document

Perform this procedure when a document with a clearing document must be corrected or reversed

- A. Use the transaction code FBRA
- B. For STEP-by-STEP End-User procedures, refer to NASA EPSS at: <u>https://epssprod01.ifmp.nasa.gov/nav/index.htm</u> and click on the following:

FBRA – Reverse Clearing Document (End User Procedure)

Once the clearing document has been removed the document is now in an open status and can be reversed

STEP 4. <u>NSSC SP, VPP</u> – Cancel an Invoice to make correction to original and re-enter - invoice must be open and not be cleared by another document

- A. Use Transaction code MR8M
- B. For STEP-by-STEP End-User procedures, refer to NASA EPSS at_

MR8M – Reverse Invoice and Re-enter (End User Procedure)

You have reversed an invoice and are now ready to re-enter it. The original invoice and the reversal can then be cleared together through F-44

STEP 5. <u>NSSC, SP VPP</u>- Clear the vendor account for specific document numbers (invoices or credit memos)

Use transaction code F-44 when the original erroneous invoice and payment document have been reversed

- A. Use T-Code F-44
- B. For STEP-by-STEP End-User procedures, refer to NASA EPSS at: <u>https://epssprod01.ifmp.nasa.gov/nav/index.htm</u> and click on the following:
- C. F-44 Clear Vendor

STEP 6. <u>NSSC SP, VPP</u> – Notify Center, as needed_

If Center action is required, notify the Center that the action can be completed. Record the Center notification event in the SN Task Work Notes.

STEP 7. NSSC SP, VPP – Post & Clear Corrected Transaction in SAP

- A. Post Corrected Transaction
 - 1. For MM invoices, utilize MIRO or MIR4
 - 2. For FI invoices, utilize FB60

B. Clear Corrected Transaction via F-52 (credit memo) or F-53 (debit invoice) **Note**: Update Text field with "Re-Entry (Original DRN)" (ex. Re-Entry 560000123)

C. The reversal form and any supporting documentation should be attached in SAP on the original DRN and the new DRN.

Process 5 – State Department IPAC Process

STEP 1: Johnson Space Center (JSC) FM Specialist-Provides the

information to NSSC to post the Department of State charges for the month

- A. JSC FM Specialist emails the month Department of State charges workbook to the NSSC AP inbox
- B. JSC FM Specialist distributes charges to the other Centers for their portion of the State Department charges via IPAC
- STEP 2: <u>NSSC. SP VPP</u>-Post and clear charges for each Center Control Activity (11.7.9.1)
 - A. Post and clear the charges received in the Department of State charges workbook in SAP and provide the SAP document number to the JSC Financial Management Specialist

(Note: See Appendix N Center Reference Guides for additional posting information for State Department charges. The activities performed to authorize the Department of State (via US Embassies) to make payments to vendors on behalf of NASA employees which are stationed in foreign countries in accordance with Prompt Payment Regulation, NPRs, EPSS and other applicable Federal and Agency regulations.)

STEP 1: <u>NASA Centers</u>-Submission of Working Capital Fund Advance using WAPR tool (Control Activity 11.7.13.1) and (11.7.13.3)

All NASA Centers pay the NSSC at a set rate for each transaction that the NSSC processes on behalf of the Center. Based on projected use, the Centers pay these rates in advance and then payments are liquidated monthly as the Centers use NSSC services.

STEP 2: <u>NSSC. SP VPP</u>-Down payments/advances and liquidations are processed

NSSC AP is responsible for processing the down payments/advances and liquidation of all NASA Centers' monthly utilization bills via the NASA Working Capital Fund (WCF) in accordance with NPRs, EPSS and other applicable Federal and Agency regulations.

1. See Appendix M for WCF Advance and Liquidations Job Aid

(NSSC AP records the advance and down payment request from the NASA Center in SAP Core Financial and generates the IPAC in IPAC.gov. Upon receipt of the monthly Center utilization bills, NSSC AP posts the liquidation of the Center advance in SAP.)

***Note: Formatting Macro "OPM TXT File to Spreadsheet" (IDEA0010079/7673 - AP IPAC OPM TXT file macro) – No current Manual Process available. Steps explained below.

- 1. Agency Outside Buyer POC provided "NASA Center Identifiers.xlsx" 2019
- 2. This spreadsheet is saved in the following path: N:\FM Division\Accounts Payable Accounts Receivable\Accounts Payable\IPAC\OPM
- 3. Macro uses spreadsheet SON and SOI data to format text file to excel file.

Appendix H – TRACS IPAC Job Aid

STEP 1. Log into IPAC.gov system, click on TRACS:

- A. Click on Query
- B. Report type: EXTRACT & CREATE TRACS REPORT
- C. Input your ALC number
- D. Input Start Date: _____End Date: _____(INPUT ENTIRE MONTH)
- E. Check "Limited Payability Cancellation;" click on SUBMIT
- F. A Summary item will appear listing the bill number. Click: ALL; the Output Format will display PDF file; click ok.
- G. Once the "The report you requested has been completed" status appears, Click DOWNLOAD and then OPEN
- H. This will produce a summary with detail report which will give you a check serial number and check date

STEP 2. Log in to SAP:

- A. Use T code: ZFI_AP_PMT_STAT_PAYMENT STATUS
- B. Input payment run date: Range of Dates (look at check date from the summary with detail report from IPAC then use the entire month for the date range)
- C. Input the business area
- D. Input C or 5 for payment method click execute at top to run the report
- E. On the report look for the closest date before the check date then find an amount and start double-clicking on the 2000 numbers. (You may have to click on several to find the right one. The object is to match up the check serial number with the amount)
- F. Note that the Document Overview Display screen will give the Doc Type such as ZT (Travel), ZQ (Accounts Receivable), etc.
- G. After you click on the 2000 number, then go to the top under ENVIRONMENT
- H. Click on the check information the check numbers have 5 leading numbers first, then look for the check serial number. This should match the check serial number on the summary with detail report from the IPAC TRACS system.
- Extract copies of the IPAC, Summary Detail Report from TRACS, SAP Document Overview Display screen, and SAP Display Check Information screen. Attach these documents in the FMC/FMT ticket and route to the appropriate department based on the doc type specified above as a High status. For routing purposes - if the doc type indicates AP, Travel or AR, assign the ticket to the AP Center lead

IPAC Types and Processes

Center Approval/Rejection Notes:

- All IPAC approval requests are routed through the IRIS Console in SAP.
- Use Approval tab in Console to request PO/PLI information from center.
- Rejected IPAC will need to be "charged back" to the originating Agency in the IPAC System notating the reason for the rejection.
- Please verify the IPAC was not rejected by center POC in error. For example, the center may erroneously reject an IPAC Credit assuming it is a Collection.
- Therefore, it is a good idea to note when routing an IPAC Payment received from another agency that it is a "Credit IPAC".
- ★ Because IPACs can be posted prior to receiving the approval in IRIS, each IPAC processor will need to run an Invoice Stat Report to search for "Rejected" IPACs that have been posted in the last 90 days.
- ★ After an IPAC has aged 60 days, SAP will auto-approve. If a posted IPAC has been rejected, it must be reversed in SAP and then rejected in the IPAC System.
- **IPAC CREDITS:** As of FY2016, per OCFO, do not process refunds (Doc type "KW" credits) related to <u>unexpired</u> funds that had a disbursement in a <u>prior year</u> which will cause a deobligation or a downward adjustment. If contract contains more than one fund and it is unclear where to post the refund, request PLI posting instructions under the Cost Tab in the IRIS Console. All Refunds/Credits will also be routed for Approval.

DCAA •

- NNX13AA01I (Agency Fee) ~ ZPAC #149538
- DCAA IPACs are submitted to ALC 80000001.
- Processor will request a breakout from L3 (NSSC), via the IRIS Console
- Processor will then create an IPAC to each center based on the breakout
- Processor will then post each center's IPAC according to L3 breakout.

DCMA

- NNX16MA12I (Agency Fee) ~ ZPAC #143926 Processed by designated assignee. The same as DCAA.
- FBI
 - Vendor # 117766
 - Processed as an FI
 - Requesting FI accounting information in Funding queue in IRIS

Fedmil

- o Vendor #SMS
- o SF1080 Bill/Invoice will be received prior to IPAC. Someone may route in Service Now to you. If you see the SF1080 in AWMS before it is routed in SN, just park it in SAP with a note: SD (date) Fedmil SF1080 pending receipt of IPAC. IF someone else routes to you in Service Now, you can still park it in SAP and note the SAP Doc in the Request/Task. Then note that it is pending the IPAC. Resolve Task/Request upon receipt of the IPAC.
- o Prepare the pdf copy of the SF1080 Invoice for arrival of IPAC, by converting it to an Excel spreadsheet. Then convert the PO#'s:
- D1 should replace the DODAAC. Example of the DODAAC would be 809103 or N66684. The PO number conversion is D1 plus the remaining numbers listed on the bill under the PO, minus the DODAAC number. If you are not in balance after the PO's are converted and pulled in to the PO reference in the SAP doc

"downstairs," do not route via the cost or funding queue. Only route via the GRAP queue.

- 1) If the number past the DoDAAC, 809103, has a P in it, then the PO# is just as it is... (i.e. 0259P015 is posted as D10259P015 or in some cases it may be D00259P015)
- 2) If the number past the DoDAAC, 809103, does not have a P in it, the PO# is preceded by DGSA1 and the rest of the number (4 digits). The remaining four digits are part of the PLI. (I.e. 0244 0011 is posted as DGSA10244 PLI 11). For example, 80910380579755 does not contain a P on the SMS bill. The PO would read DSMS08057. You will disburse on line 9755.
- o When the FEDMIL IPAC arrives, park and process in SAP. There are several types of Fedmils: FGZ, FHZ, N32, FLZ, GSA and SMS. IF Backup was not received prior to the IPAC, you must contact the Transaction Contact Person listed on the IPAC to request the backup. Ask that it be forwarded to: <u>nssc-accountspayable@nasa.gov</u> and to include you on the email as well. Once emailed, you will receive a copy; but, the backup will also arrive via the AWMS queue as well. This is the official Tech Doc link.
- The SF1080 backup will be a pdf document. You will need to convert it to Excel. This will enable you to copy and paste the PO's in SAP. When the lines are checked/adopted in SAP, check each line to see if the SF1080 matches the PO's in SAP. If not, then request GRAP via IRIS.
- o Link IPAC and SF1080/backup together in Tech Doc
- o If freight is not costed, which more than likely it will not be, send via IRIS to GRAP.
- Once the SF1080 is parked and pending receipt of the IPAC, attach a copy of the Excel version of the SF1080 Bill in SAP and email the Excel Spreadsheet to Janet Hoover at AFRC so that she can begin working the variances prior to receipt of the IPAC.
- Note: (When posting Fedmil Workaround as an FI, use Doc type KB for collections and Doc type KC for credits)

(FED MIL process power point is in the AFRC folder with examples of process. There is a new macro to convert the pdf copy of the SF1080 to Excel and it parks the PO's in

- Fuel Bill-DODAAC-809103
 - PO#-NND12CF01I has been used; although the IPAC may or may not reflect the PO number. The IPAC will reflect a Bill number and the DODAAC. The bill number is the SF1080 bill that was sent previously to AFRC by DFAS (Tanya Willard) for review. When IPAC is received, park and route in cost queue for "PO Verification and PLI Breakout".
 - If different PO# is required to post, Eric Huffmaster will supply. Eric attaches a breakout in IRIS. You must attach a copy of this breakout in SAP.

- o PO# NND13AB37I
- Vendor 117771 requisition # will appear on the IPAC under PO
- GSA FLEET
 - o Post as FI
 - o Vendor# 117770
 - Request FI Account breakout via IRIS funding queue.
- GSA Fed Supply
 - o Vendor is GSA
 - o Fed Supply will be displayed on the IPAC under the contract number for supply.
 - o Is processed as a Fedmil
 - o If PO#'s are not in SAP request backup via VCSS
- NARA
- o PO# NNH12AU77I HQ receives an IPAC for all charges. The HQ processor then IPACs each center for their portion of the charges.
- o PO is shared by all centers. Use only the PLI for DFRC to process
- o Override Center Default in IRIS Request Console when routed

- Only route for cost if needed. Do not route for approval. (The original HQ IPAC with the total charges will be routed for approval and that will serve as approval for all center's charges.) For auditing purposes, you should notate the HQ SAP Doc# in the text field prior to posting: "See SAP Doc 19000XXXXX for approval".
- **OPM** (2 different OPM IPAC's)
 - o AFRC OPM IPAC's are processed as FI
 - o Vendor 126645
 - OPM IPAC Sent from HQ IPAC Processor: OPM sends an IPAC to HQ for charges to multiple NASA Centers. The HQ NSSC IPAC processor will then issue an IPAC to each center to collect. Processor will provide the SAP #1900 location to extract your center's backup. You will need to extract the pages containing your center's backup and link to your center's IPAC before routing in IRIS.
 - Route in IRIS for the FI Accounting information under the Funding Tab and also route for approval.

OPM received from OPM

- o The IPAC processor with access to the OPM Website will download backup for all centers and will link the backup to each IPAC.
- After backup link is complete, route the IPAC with Back up in IRIS for FI Accounting breakout under the Funding Tab. Route also for approval.

• PAYROLL: IBC-POD and/or NBC-POD

Email is automatically generated by the morning macro download and sent to the center with the following verbiage: "*Attached is the NBC (IBC) IPAC transaction for your Center payroll charge. This IPAC is being sent to the Center for the Center to continue their reconciliation of the Payroll Operation Division Report and to what has been posted in SAP via the Agency Labor Distribution System (ALDS) interface.*" IPAC is then routed to Duplicate/Support.

• Unemployment and Worker's Compensation IPACs:

HQ IPAC processor will create IPACs to each center for the Quarterly Unemployment and Annual Workers Comp charges as per breakout from NSSC Human Resources.

Center Approval/Rejection Notes:

- o All IPAC approval requests are routed through the IRIS Console in SAP
- Use Approval tab in Console to request PO/PLI information from center
- Rejected IPAC will need to be "charged back" to the originating Agency in the IPAC System notating the reason for the rejection

- Therefore, it is a good idea to note when routing an IPAC Payment received from another agency that it is a "Credit IPAC".
- ★ Because IPACs can be posted prior to receiving the approval in IRIS, each IPAC processor will need to run an Invoice Stat Report to search for "Rejected" IPACs that have been posted in the last 90 days.

IPAC Types and Processes

Center Approval/Rejection:

All IPAC approval requests are routed and received via the IRIS Console. When rejected, the IPAC will need to be "charged back" to the originating Agency in the IPAC System notating the reason for the rejection. Please verify the IPAC was not rejected by center POC in error. For example, the center may erroneously reject an IPAC Credit assuming it is a Collection. Therefore, it is a good idea to note when routing an IPAC Payment in IRIS that it is a "Credit IPAC."

Because IPACs can be posted prior to receiving the approval in IRIS, each IPAC processor will need to run an Invoice Stat Report to search for "Rejected" IPACs that have been posted in the last 60 days. After an IPAC has aged 90 days, SAP will auto-approve. If a posted IPAC has been rejected, it must be reversed in SAP and then rejected in the IPAC System.

- **IPAC CREDITS:** As of FY2016, per OCFO, do not process refunds (Doc type "KW" credits) related to unexpired funds that had a disbursement in a prior year which will cause a deobligation or a downward adjustment. If contract contains more than one fund and it is unclear where to post the refund, request PLI posting instructions under the Cost Tab in the IRIS Console. All Refunds/Credits will also be routed for Approval.
- DCAA:

NNX16MA12I (Agency Fee) ~ ZPAC #149538 – DCAA IPACs are submitted to ALC 80000001. The assigned processor will request a breakout from Barbara Harriel, NSSC Cost Accountant, via the IRIS Console and will create an IPAC to each center based on the breakout. He/She will then post each center's IPAC according to the breakout provided by Barbara.

- FUEL BILLS:
 - o SF1080's for Fuel: SF1080 bills usually arrive prior to the fuel IPACs. They are sent by TANYA WILLARD (DFAS). They will come thru the AWMS queue and you will route them via Service Now to retain a copy until the IPAC arrives or you may attach to ME23N if a PO is provided on the SF1080 form. When IPAC arrives, link the IPAC and the SF1080 backup together before routing in IRIS.
 - DODAAC is 805501. IF SF1080 was received prior to an IPAC, combine the IPAC and SF1080 links using Tech Doc. An SF1080 may not always precede the IPAC.

If a SF1080 was not received at the NSSC; but an IPAC is received, that means the SF1080 was sent to the center for pre-approval. Upon Center approval, DFAS will issue an IPAC. There are multiple PO #'s for Fuel. IPACs and SF1080's normally reference the Purchase Order number. If no PO is referenced on an IPAC and/or corresponding SF1080, use NNC12IA15I to park in SAP and request the PO verification when routing for approval in the IRIS console.

IPAC Types and Processes

- Center Approval/Rejection Notes:
 - o All IPAC approval requests are routed through the IRIS Console in SAP.
 - o Use Approval tab in Console to request PO/PLI information from center.
 - o Rejected IPAC will need to be "charged back" to the originating Agency in the IPAC System notating the reason for the rejection.
 - o Please verify the IPAC was not rejected by center POC in error. For example, the center may erroneously reject an IPAC Credit assuming it is a Collection.
 - o Therefore, it is a good idea to note when routing an IPAC Payment received from another agency that it is a "Credit IPAC."
 - ★ Because IPACs can be posted prior to receiving the approval in IRIS, each IPAC processor will need to run an Invoice Stat Report to search for "Rejected" IPACs that have been posted in the last 90 days. After an IPAC has aged 60 days, SAP will auto-approve.
 - ★ If a posted IPAC has been rejected, it must be reversed in SAP and then rejected in the IPAC System.
- **IPAC CREDITS:** As of FY2016, per OCFO, do not process refunds (Doc type "KW" credits) related to <u>unexpired</u> funds that had a disbursement in a <u>prior year</u> which will cause a deobligation or a downward adjustment. If contract contains more than one fund and it is unclear where to post the refund, request PLI posting instructions under the Cost Tab in the IRIS Console. All Refunds/Credits will also be routed for Approval.

 - o Route under approval tab for approval only
 - Route on Cost Tab Requesting cost. Please specify PLI for posting and Cost Accountant will either provide cost under an existing PLI or he/she will request funding if a specific PR is not yet in place for the Jacket number and Requisition number on the IPAC
 - o If cost is available for the Jkt# and/or the Req# listed in the description on the IPAC, then use that cost to post and do not route for cost in the IRIS Console.

• GSA FLEET (804002): ZPAC #112115 - AV17001

- GSA Fleet bills are for vehicle and truck leases and are disbursed using multiple "AV" PO#'s & PLI's
- o Debit and credit IPACs must be parked separately
- o Each may include several details
- o Park all details for one DRN together
- Check the IPAC link to ensure that separate DRNs were not erroneously downloaded together in which case they will need to be separated before processing
- o Use PO#AV16001 to park
- o Route for approval via IRIS
- o Also, route in the funding queue in IRIS and note in the comment log that a PO/PLI Breakout is needed for posting

- o Jona Kafexhiu will email the breakout to NSSC Accounts Payable and the funding request will be completed once breakout has been emailed
- o You will find the breakout in the AWMS Manager queue
- o Use the PO's on the breakout to update the PO Reference Field in SAP
- o Then, post to the PLI's indicated on the breakout
- It is best to post IPAC Payments (credits) first because they are sometimes needed to post the disbursements. Route credits for PO/PLI Breakout also. Please provide PO/PLI Breakout for posting.

• GSA PROPERTY DISPOSAL:

- o IPACs received for GSA property disposal are not posted as GSA Fleet
- o The GSA Property Disposal IPACs should have the PO number listed on them
- If no PO is provided, contact the transition contact: <u>kc- property.disposal.finance@gsa.gov</u> for the backup.

• NARA: NNH12AU77I ~ ZPAC #147124

- o IPAC's are pushed by the HQ IPAC Processor
- o This is a shared PO for all centers
- o There will be several Cost lines with various funding centers under this P.O.
- Be sure to post using the PLI for KSC–76 or request cost and/or funding if needed via the IRIS Console
- o When Cost or Funding is needed, be sure to override the Center Reference in IRIS to KSC
- Do not route for approval. (The original HQ IPAC with the total charges will be routed for approval and that will serve as approval for all center's charges
- o For auditing purposes, you should notate the HQ SAP Doc# in the text field prior to posting: "See HQ SAP Doc 19000XXXXX for approval".)
- OPM: <u>FI Docs ~ ZPAC #105967</u> Park Manually using FB60 for Collections and FB65 for Payments. Use T-Code FB03 to Attach IPAC/BACKUP and perform updates. Use T- Code FBV0 for posting all FI documents.

IPAC Types and Processes

- Center Approval/Rejection:
 - o All IPAC approval requests are routed and received via the IRIS Console.
 - Rejected or partially rejected IPAC will need to be "charged back" to the originating Agency in the IPAC System notating the reason for the rejection.
 - Please verify the IPAC was not rejected by center POC in error. For example, the center may erroneously reject an IPAC Credit assuming it is a Collection. Therefore, it is a good idea to note when routing an IPAC Payment in IRIS that it is a "Credit IPAC."
 - ★ Because IPACs can be posted prior to receiving the approval in IRIS, each IPAC processor will need to run an Invoice Stat Report to search for "Rejected" and "Partially Approved" IPACs that have been posted in the last 90 days.
 - ★ After an IPAC has aged 60 days, SAP will auto-approve. If a posted IPAC has been rejected, it must be reversed in SAP and then rejected in the IPAC System.
- IPAC CREDITS: As of FY2016, per OCFO, do not process refunds (credits) related to <u>unexpired</u> funds that had a disbursement in a <u>prior year</u> (Doc type KW) which will cause deobligation/downward adjustments. If contract contains more than one fund and it is unclear where to post the refund, request PLI posting instructions under the Cost Tab in the IRIS Console. All Refunds/Credits will also be routed for Approval.

 - Patricia will submit the SF1080 by email to the NSSC Accounts Payable address and email will contain the Purchase Order Number.
 - When a SF1080 is received with center direction to pay, first park under the specified PO# and route for cost or GRAP (depending on if Fuel PR is set up in ME23N as a "Z" line item or a "D" line item).
 - Upon receipt of Cost or GRAP, an IPAC Payment will need to be issued to DFAS using the Accounting Classification information from the SF1080.
 - Change the Dates and the Reference Field in SAP to match the IPAC Date and IPAC DRN/PO#.

• Attach a copy of the IPAC payment to DFAS to the SAP transaction and post. **Note**: Normally, SSC Fuel is paid by EFT to the local AP Vendor awarded the contract. The payment is processed by AP from a vendor invoice; but, occasionally when fuel is ordered from DLA Energy, DFAS will submit a SF1080 Bill to the SSC POC, who will then submit to NSSC.

• GSA FLEET (FLT DODAAC #804006; 804045; 804056) ~ PO# NS8205 ~ ZPAC 125583

- Collection IPACs will have multiple details/pages.
- Park each DRN as one IPAC regardless of how many detailed pages it contains.
- Credit IPACs are processed separately by IPAC DRN and each may also contain multiple pages.
- Check each IPAC link to ensure that separate DRNs were not erroneously downloaded together in which case they will need to be separated before processing.
- Post credits first as current year credits (Doc Type ZC) against current year disbursements.
- Then, request cost to post the IPAC Collection.
- Route collection IPAC for Funding if/when needed.
- When Funding is needed, also Request Cost at the same time.
- The SSC cost team will request funding for specific PLI's prior to completing cost request.
- Post IPAC upon completion of the Cost request.
- Do not wait to post until Funding request is completed because the center may not complete it.
- GSA FTS (NCCIPS) ZPAC: 109851 Two PO #'s (NNS13AA03I and NNS14AA75I) All IPACs are routed via the IRIS Console for approval. You will need to override the Default Center to either NSSC or SSC depending on which ALC the IPAC was submitted to. Two PO's:
 - NNS14AA75I (BOAAC 804099) No special instructions Post as normal IPAC using cost available and route for approval in the IRIS Console.

NNS13AA03I (BOAAC 804084) – Funding is split between NSSC and SSC. IPAC is posted per Breakout from NCCIPS POC:

- For NNS13AA03I a SF1034 Backup Invoice from SAIC arrives prior to the IPAC – attach the invoice in ME23N.
- A Breakout is then submitted by email from either Iris Bissell (NSSC- NCCIPS-Deltha Corp) or Ellen Clark (NSSC NCCIPS -Deltha Corp).

- Cost accountants at SSC and NSSC are also copied on the email to the NSSC.
- The Backup and Breakout will come in via the AWMS Manager queue.
- Attach the SAIC invoice and the Breakout in ME23N.
- Cost acctnts will post cost based on the SF1034 Invoice and Breakout from Iris or Ellen.
- GSA will IPAC charges under Stennis ALC 80000101 until all cost lines for SSC have been disbursed.
- GSA will also IPAC ALC 80000001 for the NSSC funding lines.
- Be sure to post to appropriate funding lines.
- Post any IPACs that "wash" first (debits and credits).
- Then, review the Breakout received earlier to verify the total amounts on the Breakout for each ALC match the total amounts of the IPACs received.
- Next, post any Credits against a current year disbursement.
- Then, post IPACs from the least amount to the largest amount.
- If IPACs received do not tie back to the cost breakout, send email for guidance to: Iris Bissell and Ellen Clark and copy Leslie Ladner and Margaret Furey.
- Per the direction from one of the POCs, the IPAC processor may need to create (push) an IPAC to/from SSC or to/from NSSC when one of the centers was over/under billed. OR, POC may email NSSC to reject an IPAC.
- When directed to reject an IPAC, forward the email to the approver, Kay Doane.
- Then, route the IPAC in the IRIS Console noting in the comments field to: "Please reject per email from (Iris Bissell or Ellen Clark)."

- After backup is attached, route the combined link in the SAP IRIS Console for Cost and Approval.
- ALWAYS route for cost and approval; even when funding is also needed/requested.
- The cost team will request the funding needed for specific PLI's and will complete the cost request.
- Post upon completion of the Cost request.
- No specific lines given. Cost placed will probably be what is needed.
- Do not wait to post until the Funding request has been completed because the funding request may never be completed.
- SSC will pull their own backup

• PAYROLL: IBC-POD and/or NBC-POD

Email is automatically generated by the morning macro download and sent to the center with the following verbiage: "Attached is the NBC (IBC) IPAC transaction for your Center payroll charge. This IPAC is being sent to the Center for the Center to continue their reconciliation of the Payroll Operation Division Report and to what has been posted in SAP via the Agency Labor Distribution System (ALDS) interface." IPAC is then routed to Duplicate/Support.

 SAVE PROGRAM – <u>Reject IPACs</u> – There is currently no Contract/PO in place. Per Security Specialist, Van Ward, SSC pays for these background checks via Purchase Card.

UNEMPLOYMENT & WORKERS COMPENSATION

- HQ IPAC processor will create IPACs to each center for the Quarterly Unemployment and Annual Workers Comp charges as per breakout from NSSC Human Resources.
- Upon receipt of the SSC IPAC, use the current year funding information provided by your center to post as an FI Document (FB60 for IPAC Collection and FB65 for IPAC Payment).
- Route in IRIS for approval and use current year info to post.

Rejecting IPAC transaction out of the IPAC system

Adjustments may be made to payments or collections received by your ALC. That is, you cannot make an adjustment to a transaction that was originated by your ALC. More than one adjustment can be made to a single payment or collection transaction, as long as the sum of each of the detail item adjustments does not exceed the total of the original line item amount. Adjustments can be processed against payments or collections that are ninety days old or less.

- Main tab Click Transactions from the left menu bar on the IPAC Today page to display the IPAC Transactions page. Type the ALC and the Customer ALC. Select <u>Payment or Collection</u>, <u>Adjustment</u>, <u>Zero Dollar</u>, <u>Incomplete</u> or Standard General Ledger (<u>SGL</u>) <u>Information</u> from items in the Transaction Type list. After you select the Adjustment transaction type, the ALC, Customer ALC, and Transaction Type fields cannot be edited.
 - a) Required fields are denoted by an asterisk *
 - b) Type the Document Reference Number (assigned to original payment or collection) and the Disbursing Office (DO) Symbol (for ALC that originated the transaction) and click Find.
 - c) If you need the DO Symbol, click the Organization Info link next to Customer ALC data field.
 - d) To enter an adjustment, select the detail line item at the bottom of the page. Detail information for the original payment or collection will appear in a scrolling window. The visible items include: the Line Number, ALC, Type, Cust ALC, the Amount, and the description that was entered for the detail. Click Edit.
 - e) If you wish to adjust the entire transaction (which includes all line items), click the Adjust Entire Transaction button. This will generate a Transaction Confirmation.
 - f) To determine what to type into the Sender TAS field, type a wildcard (use the percent symbol %) (20%, for example). Then click Find next to the BETC label. The Search Results list will display. Click the down arrow next to Search Result List to find the wildcard occurrence that you want. Select the wildcard and the TAS and BETC fields are populated.

Appendix P – Guidance on Credits/Refunds to Closed Contracts and Grants from Office of the Chief Financial Officer (OCFO)

Existing Practice

It has come to our attention that the practice has been to post credits/refunds directly to closed contracts and grants. The purpose of this guidance is to end that practice and provide alternative approach. Effective Date of New Guidance is: May 1, 2012.

New Guidance

If a credit/refund is received for a contract/grant that has been closed and the Appropriation that provided initial funding for the contract or grant is not in cancelled phase, process a *refund due receivable* and liquidate the receivable by applying the credit/refund against it.

Reversal of Prior Credits/Refunds

The NSSC will reverse prior years' credits/refunds posted against closed grants/contracts in two phases. In Phase 1, which is going on now, the NSSC will reverse all current year credits/refunds posted against closed contracts/grants. If an MR11 (De-obligation) had been executed against the line item of the contract in which the credit/refund was posted, the credit cannot be reversed. In phase 2, following completion of Phase 1, the NSSC will reverse credits/refunds posted in prior years against closed contracts and grants.

Department of Health and Human Services (DHHS)

DHHS has been notified of the above changes. Effective, May 1, 2012, the DHHS will issue *Intergovernmental Payment and Collection System* (IPAC) to the appropriate Agency Location Code (ALC) for the amount of the credit/refund if the grant is closed and the Appropriation is not in cancelled phase. DHHS has also been notified of the reversal of credits/refunds posted in the DHHS Payment Management System (PMS) and issuing IPACs for all transactions, including any transactions posted by a Center. We are requesting the DHHS to send a notification to NASA's grantee noting the change in our process.

Grant/Contract Closeout Process

If grants/contracts closeout process works as it should, there will be no credits/refunds to closed grants/contracts. Before a grant or contract is closed, all grant/contract all reports due from grantee/contractor must be requested and received, and all transactions reconciled, before the grant/contract can be properly closed. It is during this final review and reconciliation phase of the closeout process that any refunds/credits due will be identified and posted against the grant/contract <u>before</u> it is closed, so that when closed, it is closed. This problem of credit/refunds to closed contracts/grants can be avoided in the future by closing grants/contracts properly.

If you have any questions, please contact Loren Phillips (<u>Loren.J.Phillips@nasa.gov</u>). RELEASED - Printed documents may be obsolete; validate prior to use.

Appendix R – Job Aid for FEDMIL Workaround Spreadsheet Effective 6/4/2015

The Outstanding FedMil spreadsheet is a tracking mechanism used to track any FedMil supplies identified by NASA Centers as needing to be placed in the FedMil workaround process. The FedMil workaround process represents supplies that the Centers have issues with (e.g. not receiving an ordered part or not being charged correctly for an ordered part). The spreadsheet tracks the open FedMil transactions and any credits received against those transactions.

The spreadsheet has 25 columns and is colored to represent the department responsible for populating the data. The Green columns are input by IPAC and the Blue columns are input by AR. The spreadsheet also has several tabs that are organized by Centers (GSFC, JSC, AFRC, and LaRC). There is a Total Outstanding tab which shows the totals (by Center) of the outstanding FedMils. This tab also allows IPAC and AR to balance their remaining balance to see if there are any variances. The Reference Field tab is used for the drop-down list selections on the Center tabs.

The IPAC input columns are as follows:

- FMC #— The FMC that IPAC created to notify AR of a debit/credit.
- IPAC Accomplish Date—The date the IPAC was received by NSSC.
- IPAC DRN #-The Document Reference Number associated with IPAC received by the NSSC.
- Original IPAC DRN #—The original IPAC DRN that paid for the FedMil Invoice. (A FedMil credit transaction will have a different IPAC DRN and Original IPAC DRN since it is referencing an ordered part)
- SF1080 & IPAC Bill #— The SF1080 bill number that is sent from the supplying Agency which lists all ordered parts.
- SAP PO#— The Purchase Order number that is associated with the FedMil workaround item. Each item will have a different number and any credits received will reference a previous PO#.
- Vendor #— The vendor number in SAP that references the supplying Agency.
- TAS— The Treasury Accounting Symbol associated with the IPAC.
- Fund— The fund associated with the FedMil transaction.
- Date Cleared— The date that the SAP document was posted and cleared.
- SAP FI Doc Posting # 1900/1700's— The document number that was posted for the FedMil transaction. A 1900# is for items put into the workaround. A 1700# is for credits against previous workaround items.
- Clearing doc #1500— The document number that cleared the 1900 or 1700 #s (second part of the transaction)
- Invoice AMT posted/cleared \$— The amount of the item placed in FedMil workaround. (1900# only)

RELEASED - Printed documents may be obsolete; validate prior to use.

- Credit Memo AMT posted \$— The amount of the credit for a FedMil workaround item (1700 # only). This is entered as a negative number.
- AP Balance remaining— The amount of the AP (IPAC) remaining balance. This balance represents the workaround items that are listed as outstanding.

The AR input columns are as follows:

- Customer #— The customer number in SAP that references the supplying Agency.
- Trading partner— The trading partner in SAP that references the supplying Agency.
- Date— The date that the SAP document was entered.
- AR Invoice/Credit Memo # 1800/1600's— The document number that was posted for the FedMil transaction. A 1800# is for items put into the workaround. A 1600# is for credits against previous workaround items.
- SAP Assignment #— The assignment number that is associated with the original FedMil workaround item. The SAP assignment number is used to tie related FedMil workaround items and/or the corresponding credits together.
- Invoice AMT posted \$- The amount of the item placed in FedMil workaround. (1800 # only)
- Credit Memo AMT posted \$— The amount of the credit for a FedMil workaround item (1600 # only). This is entered as a negative number.
- AR Balance remaining— The amount of the AR remaining balance. This balance represents the workaround items that are listed as outstanding.
- AR Reversal Amt— The amount of the document being reversed. This amount will be the opposite of original document posted. (e.g. Debit will be entered as a Credit)
- AR Rev Doc # 1800/1600's— The document number for the reversal of a FedMil workaround item and/or the items corresponding credit.
- FedMil Status— The status of the FedMil. OPEN means that there is still an outstanding balance. CLOSED means that the FedMil workaround item has been resolved and there is no longer an outstanding balance. REVERSED means that the FedMil workaround item and/or the corresponding credit has been reversed. There are formatting and formulas requirements that are associated with the entry of these items.

Formatting

- The FedMil workaround debits and credits are entered on its own individual rows. The credits should always be entered as a negative number.
- Each FedMil workaround debit and its corresponding credits are placed together on the spreadsheet with a border.
- There is only an outside border around the transactions. There are no

Formulas

Service Delivery Guide

NSSC

- There are simple formulas for entries made for amounts that are used to calculate the remaining balance.
- The formula for the Remaining Balance column is the debit amount plus the credit amount. {\$\$\$
 - + (\$\$\$) = remaining balance}
- The formula for the credit memo amount posted (next to the debit entries only) would be the sum of all the credits entered on the spreadsheet. So every time a new credit is entered for a workaround item, that amount needs to be added to the overall sum of credits next to the debit entry.
- The formulas will be applied the same on both the IPAC columns and the AR columns.

Example

i. There are no credit amounts for this workaround item. So the remaining balance is \$256.29 + \$0 =

\$256.29

ii. There are multiple credits for this workaround item(s). The credits are added

together and the sum of the credits are put next to the debit posting. (\$1.06) +

(\$165.49) + (\$4.14) + (\$1515.22) + (\$113.16) = (\$1799.07)

The remaining balance is \$9394.35 + (\$1799.07) =

Subject: AP Intra-Governmental Payment and Collection (IPAC) Processing

- There are formulas located on the Total Outstanding Tab within the spreadsheet. This formula is the sum of the AP Balance Remaining Columns and the AR Balance Remaining Columns.
- The formula will show the FedMils total outstanding balance that AP and AR have listed for each Center.
- If a variance is showing, then the AP and AR balances are not correct and an error may have taken place or a debit/credit transaction is needing to be posted.

Reversal Entries

- Reversal entries are unique situation that may occasionally occur.
- All entries for reversals will be on AR's responsibility.
- Occasionally entries will have credits associated with an outstanding amount.
- In these cases, the Debit and all associated credits will be reversed in SAP.
- A new Debit (bill) will be established for the total sum of the Credits.
- Then the credit will be applied to the new bill in SAP.
- The original document date for the new debit and credits will be used.
- If any new debits (bill) and credits are created, the original IPAC information entered by AP will be used.
- These new debits and credits will be added to the spreadsheet under the existing entries.
- An additional formula entry is required for Reversed documents as the reversal of a document needs to show the original posting as zero.
- The entries in the AR Reversal Amt will be the opposite of what was originally entered (e.g. Debit will be entered as a Credit) so the entry will wash.
- The formula within the AP Balance Remaining and the AR Balance Remaining needs to be adjusted adding these entries.
 {\$\$\$ + (\$\$\$) + [Reversed (\$\$\$) + Reversed \$\$\$] = remaining balance}
- After the reversal information is input and the documents reversed will be set to a Reversed Status
- If any new debits and credits were input on the spreadsheet their status will reflect closed

- Upon receipt of the IPAC Attach IPAC in SAP, update the SAP Doc Date, Received Date, and DRN to match the IPAC
- Link a copy of the bill with the IPAC in Tech Doc
- Balance POs that have goods receipt to the SF1080 bill. If POs still require the goods receipt, park them separately, route for goods receipt in IRIS, then delete them from the original parked document
- If POs do not exist in SAP, park separately as an FI, delete the PO from the original SAP parked document, and route the separate parked docs for Funding in IRIS. Notify center of any price variances
- Post Original SAP document with all PO's that balanced
- Post other PO's as goods receipt or funding is received
